1-5002: 2 Ply Teflon

Color: White

Plies: 2

Nom. OAG: 0.065" +/- 0.015"

Fabric: Polyester

Top Surface: Teflon Cover

Bottom Surface: Friction Surface

Compound: PTFE (Teflon)

Work Tension: 60 lbs./PIW

Elongation: Less than 2%

Weight: 0.037 lbs./PIW

Minimum Pulley: 1.5"

Working Temp: 0 to 250 °F

Max. Stocked Width: 60"

Attributes: FDA Compliant, Sliderbed Suitable

Top Cover CoF: 0.25

Bottom Cover CoF: 0.3

Features

1-5002 incorporates a Teflon cover bonded to a high-strength polyester carcass, providing exceptional release performance in high-temperature or sticky-material environments. The structure resists distortion and maintains flexibility.

The belt runs clean, offers excellent non-stick characteristics, and withstands demanding process conditions.

2 Ply Teflon is widely used in confectionery, baking, hot product handling, and food-processing applications where premium release and thermal resistance are essential.
