Features

This belt features a tightly woven fabric construction designed for smooth, dependable general conveying. It is non-marking, highly flexible, oil resistant, and easy to clean, making it suitable for a wide variety of light-duty industrial applications. The belt can be fabricated endless using either cold-vulcanizing cement or traditional hot-vulcanizing methods, providing installation flexibility across different systems.

Commonly used to convey light products in general manufacturing settings, this construction is especially popular in the printing industry due to its clean release, stable tracking, and reliable performance.
