3-1313Z: Blue Rough Top Ziplink

Color: Blue

Plies: 1

Nom. OAG: 0.29" +/- 0.03"

Fabric: Plastic Mesh

Top Surface: Hemp Impression Rough Top

Bottom Surface: Bare

Compound: XNBR

Work Tension: 150 lbs./PIW

Elongation: Less than 1%

Weight: 0.09 lbs./PIW

Minimum Pulley: 3"

Backflex Min. Pulley Dia.: 4.5"

Working Temp: 0 to 250 °F

Max. Stocked Width: 72"

Attributes: Abrasion Resistant, Sliderbed Suitable

Top Cover CoF: 0.9

Bottom Cover CoF: 0.1

Features

3-1313Z uses a Ziplink splice to eliminate issues with lace retention or situations where installing an endless belt is difficult. The carboxylated NBR compound delivers excellent abrasion resistance, making this a durable solution for light and medium-duty industrial applications.

The smooth, non-metallic Ziplink splice provides the convenience of a laced belt with the tension rating of an endless belt. This construction is especially popular in corrugated and cardboard box facilities where uptime and splice reliability are critical.
