Working Temp: 10 to 175 °F

Attributes: Troughable, Sliderbed Suitable, Oil Resistant, Abrasion Resistant

Features

UM1 G220 FBS features a tough, quiet-running cover that is non-marking and highly resistant to cuts, oil, and grease. The carcass supports consistent tracking and long belt life.

The belt handles sharp or heavy parts without sacrificing surface finish.

It is an excellent choice for auto-parts handling, metal stamping conveyors, and airport luggage systems where durability and appearance both matter.
