7-1012: 1/2" Black Skirtboard

Color: Black
Nom. OAG: 0.5" +/- 0.03"
Fabric: N/A
Top Surface: Smooth
Bottom Surface: Smooth
Compound: SBR
Work Tension: 0 lbs./PIW
Weight: 0.325 lbs./PIW

Working Temp: 0 to 200 °F

Features

7-1012 is manufactured from a 65 ± 5 durometer rubber compound engineered for abrasion resistance and long service life. The material provides a durable sealing surface suitable for moderate-impact conditions common in bulk material handling.

The 1/2" skirtboard thickness is ideal for conveyor skirting, chute lining, and bin/hopper protection in sand, aggregate, and industrial applications. Available in multiple widths in standard 50' rolls or cut-to-length pieces to meet specific installation requirements.
